

# DLT ALERT™

Fast Benefits, **Faster Payouts.**

## Turn Security Controls Into **Dynamic Warranty Value**

Embedded cyber warranties that drive adoption, retention, and faster payouts.

DLT helps cybersecurity solution providers embed telemetry-driven warranties directly into their platforms. As customers connect more verified services and maintain stronger controls, warranty value increases in real time.

The result: stronger product adoption, better retention, and visible financial protection tied to performance.

### Key Outcomes

- ✓ Drive product adoption
- ✓ Increase retention
- ✓ Expand deal size
- ✓ Differentiate your platform
- ✓ Accelerate payouts
